**Bilingualism in toddlers**

Share this clear and concise message with your families who want their toddlers to be bilingual. Developmental milestones for bilingual children are the same as for children who learn only one language. But learning two languages depends on how much practice the child gets. So, start early and make it fun!

**Learning language through play**

How can babies from monolingual households learn a second language? Researchers at the University of...
Washington set out to answer this question and found that playful, social interactions were key.
