March/April 2022
We're here to support your family through learning and beyond.

End of the school year: Finals, study tips and anxiety
As the end of the school year comes closer, students start thinking about spring finals and Advanced Placement exams. They might even be looking ahead to the PSAT, SAT or ACT for colleges. The library has print and online resources, live tutoring help, and some study tips to help.

For teens: Life after High School
The whole wide world is open to you after high school. You can be anything you want! But what choices do you want to make out of the millions available to you? The library is here to help!

March MATHness
This March the library is celebrating math! Math is everywhere and children are born mathematicians. It's never too early to introduce math concepts to kids. We have some fun ways to support math learning at any age.

Follow the Reader
Young folks can practice their reading skills with teens!

Discovery Kits
Hands-on kits for discovering everything from anatomy to electricity.

Poetry for children
In honor of April's Poetry Month, here are some wonderful kids' poetry books.

Makerspace minikits
Makerspace minikits are STEAM-based activities in a bag, free to pick up at any library.

Utility Debt Relief
For City of Portland residents, apply for a bill credit on your water bill.

Teens only
Join a council, stream music, get homework help, volunteer. There's lots for teens at the library!
