

Inclement Weather Information for Volunteers

Here is information about Multnomah County Library's inclement weather policy and procedures. In the event of inclement weather, we encourage you to call the library at 503.988.5123 before your scheduled volunteer shift. MCL also shares information with the public through multcolib.org, the [MCL Twitter feed](#), [MCL Facebook page](#), and news media.

Library buildings are always considered open and operable under normal conditions unless the official MCL communication channels have indicated a closure or revision of operating times.

Your safety is always the most important. If you do not feel comfortable reporting for your scheduled volunteer shift due to inclement weather, and the library is operating under normal or reduced schedules, please contact your location or call 503.988.5123 to be connected with staff at the library where you volunteer.

If you have further questions, please contact your supervisor or Volunteer Services at libvols@multcolib.org or 503.988.5731.

Thank you for volunteering at Multnomah County Library. We truly appreciate all your work!
