## Taming Google

Use Google's advanced search, found under the gear.

Search for exact phrase, search for none of these words, and search site with specific domains like .edu, .gov and .org for information.

Don't forget videos can be informative too. Search YouTube and other video sites for educational programs from places like National Geographic or the History Channel.

This program is supported in whole or part by the Institute of Museum and Library Services through the Library Services and Technology Act, administered by the Oregon State Library.
